#### 1. NATURE OF OPERATIONS AND GOING CONCERN

# (a) Nature of operations

P2 Gold Inc. (the "Company") was incorporated under the laws of the Canada Business Corporations Act on November 10, 2017 and continued under the British Columbia ("BC") Business Corporations Act on August 31, 2020. The Company's common shares are traded on the TSX Venture Exchange ("Exchange") under the symbol "PGLD" and the OTCQB Venture Market under the symbol "PGLDF". The address of the Company's registered office is 15th Floor, 1111 West Hastings Street, Vancouver, BC, Canada V6E 2J3.

The Company is a mineral exploration company engaged in the acquisition, exploration and development of mineral resource properties primarily in the western United States of America ("USA"). Currently, the Company is focused on financing exploration programs and engineering studies to identify potential mineral reserves.

The Company has not yet determined whether its mineral resource properties contain mineral reserves that are economically recoverable. The continued operation of the Company is dependent upon the preservation of its interest in its properties, the discovery of economically recoverable reserves, the ability of the Company to obtain the necessary financing to complete the exploration and development of such properties and upon future profitable production or proceeds from the disposition of such properties.

# (b) Going concern assumption

These condensed consolidated interim financial statements are prepared on a going concern basis, which contemplates that the Company will be able to meet its commitments, continue operations and realize its assets and discharge its liabilities in the normal course of business for at least twelve months from June 30, 2025. For the six months ended June 30, 2025, the Company had net earnings (loss) of \$629,576, which included other income from the sale of the Ball Creek claims in the amount of \$1,200,000 and generated cash from operating activities of \$385,974, which included \$950,000 from the sale of the Ball Creek Claims. As at June 30, 2025, the Company had cash and cash equivalents of \$588,690 (December 31, 2024 – \$539,945) and a working capital (current assets less current liabilities) deficit of \$1,306,634 (December 31, 2024 – \$2,103,048).

The Company has incurred losses to date, has limited financial resources and has no current source of revenue or cash flow from operating activities. To address its financing requirements, the Company plans to seek financing through, but not limited to, debt financing, equity financing and strategic alliances. However, there is no assurance that such financing will be available. If adequate financing is not available or cannot be obtained on a timely basis, the Company may be required to delay, reduce the scope of or eliminate planned exploration programs and adjust its corporate business plans.

The above factors give rise to material uncertainties that may cast significant doubt on the Company's ability to continue as a going concern. If the going concern assumption were not appropriate for these condensed consolidated interim financial statements, then adjustments would be necessary to the carrying values of assets, liabilities, the reported expenses and the consolidated statement of financial position classifications used. Such adjustments could be material.

#### 2. MATERIAL ACCOUNTING POLICY INFORMATION

# (a) Statement of compliance and basis of presentation

These condensed consolidated interim financial statements have been prepared in accordance with International Accounting Standard ("IAS") 34, Interim Financial Reporting using accounting policies consistent with IFRS Accounting Standards as issued by the International Accounting Standards Board ("IFRS Accounting Standards").

The Company's material accounting policies applied in these condensed consolidated interim financial statements are the same as those disclosed in note 3 of the Company's annual consolidated financial statements as at and for the years ended December 31, 2024 and 2023. These condensed consolidated interim financial statements should be read in conjunction with the Company's most recent annual consolidated financial statements.

The functional currency of the parent company is the Canadian dollar ("CAD" or "\$") and the functional currency of each of the Company's subsidiaries is the United States dollar ("USD" or "US\$"). The presentation currency of these condensed consolidated interim financial statements is CAD.

These condensed consolidated interim financial statements were authorized for issuance by the Board of Directors on August 7, 2025.

## (b) Critical accounting estimates and judgments

The preparation of financial statements requires the use of accounting estimates. It also requires management to exercise judgment in the process of applying its accounting policies. Estimates and policy judgments are regularly evaluated and are based on management's experience and other factors, including expectations about future events that are believed to be reasonable under the circumstances. Actual results may differ from these estimates. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

The following discusses the most significant accounting policy judgments and accounting estimates that the Company has made in the preparation of the condensed consolidated interim financial statements including those that could result in material changes within the next twelve months in the carrying amounts of assets and liabilities:

Key instances of accounting policy judgment

• The assessment of the Company's ability to continue as a going concern requires judgment related to future funding available to continue exploring and developing its properties and meet working capital requirements, the outcome of which is uncertain (refer to note 1b).

# 2. MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

# Estimation uncertainty

The fair value of financial instruments that are not traded in an active market are determined using
valuation techniques. Management uses its judgement to select a method of valuation and makes
estimates of specific model inputs that are based on conditions existing at inception and at the end of
each reporting period. Refer to note 9 for further details on the methods and assumptions associated
with the measurement of the convertible debentures.

# (c) New accounting standards and recent pronouncements

The following standards, amendments and interpretations have been issued but are not yet effective:

- In May 2024, the International Accounting Standards Board ("IASB") issued Amendments to the Classification and Measurement of Financial Instruments (Amendments to IFRS 9 and IFRS 7). These amendments updated classification and measurement requirements in IFRS 9 Financial Instruments and related disclosure requirements in IFRS 7 Financial Instruments: Disclosures. The IASB clarified the recognition and derecognition date of certain financial assets and liabilities, and amended the requirements related to settling financial liabilities using an electronic payment system. It also clarified how to assess the contractual cash flow characteristics of financial assets in determining whether they meet the solely payments of principal and interest criterion, including financial assets that have environmental, social and corporate governance ("ESG")-linked features and other similar contingent features. The IASB added disclosure requirements for financial instruments with contingent features that do not relate directly to basic lending risks and costs, and amended disclosures relating to equity instruments designated at fair value through other comprehensive income. The amendments are effective for annual periods beginning on or after January 1, 2026 with early adoption permitted. This amendment is not expected to have a material impact on the Company.
- In April 2024, the IASB issued IFRS 18 Presentation and Disclosure in Financial Statements which will replace IAS 1, Presentation of Financial Statements. The new standard on presentation and disclosure in financial statements focuses on updates to the statement of earnings (loss). The key new concepts introduced in IFRS 18 relate to the structure of the statement of earnings (loss), required disclosures in the financial statements for certain earnings (loss) performance measures that are reported outside an entity's financial statements and enhanced principles on aggregation and disaggregation which apply to the primary financial statements and notes in general. Many of the other existing principles in IAS 1 are retained, with limited changes. IFRS 18 will apply for reporting periods beginning on or after January 1, 2027 and also applies to comparative information. The Company is in the process of assessing the impact of this standard.

There are no other IFRS Accounting Standards or International Financial Reporting Interpretations Committee interpretations that are not yet effective or early adopted that are expected to have any impact on the Company.

# P2 GOLD INC. NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS For the three and six months ended June 30, 2025 and 2024 Unaudited – Expressed in Canadian dollars, except for share data

# 3. MARKETABLE SECURITIES

As at June 30, 2025, the Company holds 1,515,151 common shares of Kingfisher Metals Inc. ("Kingfisher") that were received as part of the consideration for the sale of the Ball Creek claims (refer to note 10a). A continuity of the marketable securities is as follows:

|  | June 30,         | December 31, |
|--|------------------|--------------|

| Net book value - June 30, 2025 | \$                               | 35,599  | \$<br>2,913                   | \$ | 38 <b>,</b> 512 |

Property, plant and equipment consists of exploration equipment, a light vehicle, office furniture and information technology hardware.

As at June 30, 2025, the ROU asset consists of the Company's photocopier which is depreciated over the term of the lease.

#### 6. ACCOUNTS PAYABLE AND ACCRUED LIABILITIES

|                     | June 30,      | December 31, |
|---------------------|---------------|--------------|
|                     | 2025          | 2024         |
| Trade payables      | \$<br>91,549  | \$ 45,627    |
| Interest payable    | 46,703        | 54,830       |
| Payroll liabilities | 4,950         | -            |
| Accrued liabilities | -             | 96,300       |
|                     | \$<br>143,202 | \$ 196,757   |

#### 7. LEASE OBLIGATIONS

As at June 30, 2025, the Company's lease obligations consisted of the following:

|  | June 30,       | December 31, |
|--|----------------|--------------|
|  | 2025           | 2024         |
| Gross lease obligations - minimum lease payments |                |              |
| 1 year   | \$<br>2,136 \$ | -            |
| 2-3 years  | 1,246          | -            |
|  | \$<br>3,382 \$ | -            |
| Future interest expense on lease obligations     | (382)          | -            |
| Total lease obligations                          | \$<br>3,000 \$ | -            |
| Current portion of lease obligations             | (1,813)        | -            |
| Non-current portion of lease obligations         | \$<br>1,187 \$ | -            |

For the six months ended June 30, 2025, interest expense on the lease obligation was \$210 (2024 – nil). Total cash payments on lease obligations were \$890 (2024 – nil). To determine the ROU asset and lease obligation, the Company estimated its incremental borrowing rate to be 14.75% at inception of the lease agreement.

#### 8. ACQUISITION LIABILITIES – GABBS PROJECT

On February 22, 2021, the Company entered into an asset purchase agreement with Borealis Mining Company, LLC ("Borealis"), an indirect, wholly owned subsidiary of Waterton Precious Metals Fund II Cayman, LP ("Waterton") to acquire all the assets that comprise the Gabbs Project located on the Walker-Lane Trend in the Fairplay Mining District of Nye County, Nevada.

On May 4, 2021, the Company and Borealis agreed to amend the terms of the asset purchase agreement ("Amended Agreement"). Under the Amended Agreement, the Company paid \$1,216,600 (US\$1,000,000) and issued 15,000,000 common shares (\$7,500,000 in fair value) in its capital to Waterton at closing of the transaction. In addition, the Company was required to pay Waterton Nevada Splitter LLC ("Splitter"), an affiliate of Borealis, (a) US\$4,000,000 on the twelve-month anniversary of closing and (b) US\$5,000,000 on the earlier of the announcement of results of a Preliminary Economic Assessment ("PEA") and the 24-month anniversary of closing.

# 8. ACQUISITION LIABILITIES – GABBS PROJECT (Continued)

Borealis reserved for itself a 2% net smelter returns royalty on production from the Gabbs Project, of which one percent may be repurchased at any time by the Company for US\$1,500,000 and the remaining one percent of which may be repurchased for US\$5,000,000. Waterton assigned its rights to the royalty to Franco-Nevada Corporation in June 2023.

On April 28, 2022, the Company and Splitter agreed to amend the terms of the milestone payments under the Amended Agreement for the purchase of the Gabbs Project. Under the amended terms, the Company would pay Splitter (a) US\$500,000 on May 31, 2022; (b) US\$500,000 on December 31, 2022, if the Company completed an equity financing in the second half of 2022; and (c) US\$8,000,000 or US\$8,500,000 on May 14, 2023 (depending on whether US\$500,000 was paid on December 31, 2022), provided that if the Company announced the results of a PEA prior to May 14, 2023, all outstanding payments would be due on the earlier of 60 days following the announcement of such results and May 14, 2023, and if the Company sold an interest in the Gabbs Project at any time, including without limitation, a royalty or stream, the proceeds of such sale shall be paid to Splitter up to the amount remaining outstanding.

On March 3, 2023, the Company and Splitter agreed to restructure the outstanding payment terms for the acquisition of the Gabbs Project. As part of the restructuring, the Company entered into an amending agreement (the "Second Amended Agreement") with Splitter pursuant to which the Company would pay to Splitter (a) US\$150,000 on or before December 31, 2023, (b) US\$250,000 on or before December 31, 2024, (c) US\$2,000,000 on or before December 31, 2025 and (d) US\$2,400,000 on or before December 31, 2026. Under the Second Amended Agreement, if the Company raised, through the issuance of debt or equity, in excess of \$7,500,000 (excluding flow-through funds), 10% of the funds raised would be paid to Splitter against the longest dated milestone payment and on the sale of an interest in, or of, the Gabbs Project, the proceeds would be paid to Splitter up to the amount outstanding at the time.

In addition, on March 3, 2023, the Company issued to Splitter a US\$4,000,000, zero coupon convertible note with a four-year term convertible at a price of \$0.30 per share provided that the convertible note could not be converted if all payments due under the Second Amended Agreement had been made at the time the convertible note was called (other than if a change of control was to occur prior to repayment of the convertible note). The convertible note could be called by the Company at any time on payment of 115% in the first year, 130% in the second year and 150% thereafter and is due on maturity, an event of default or a change of control. Under the terms of the convertible note, approval by the shareholders of the Company was required if conversion of the convertible note would make Waterton (including affiliated entities) a control person (as defined in the Exchange's Corporate Finance Manual).

In consideration for the restructuring, the Company issued 3,320,534 common shares (\$797,011 in fair value) in the capital of the Company to Splitter following Exchange approval of the Second Amended Agreement.

The initial measurement of the acquisition liabilities under the terms of the Second Amended Agreement resulted in a gain on extinguishment of the pre-existing acquisition liabilities of \$2,056,201.

# 8. ACQUISITION LIABILITIES – GABBS PROJECT (Continued)

On February 9, 2024, the Company entered into a termination agreement ("Termination Agreement") with Splitter to settle the outstanding debt related to the acquisition of the Gabbs Project which included US\$4,800,000 of contractual cash obligations and a US\$4,000,000 convertible note as per the Second Amended Agreement.

Under the Termination Agreement, in settling the outstanding debt with Splitter, the Company (a) issued 5,231,869 common shares (\$340,071 in fair value) in the capital of the Company, (b) paid \$1,357,200 (US\$1,000,000) and will pay (c) US\$125,000 on or before January 31, 2025 (paid on January 28, 2025); and (d) US\$125,000 on or before January 31, 2026.

Under the terms of the Termination Agreement, the remaining contractual cash obligations were initially recognized at amortized cost, net of transaction costs, in the amount of US\$205,457 (\$278,846) using a discount rate of 14.5%. The amortized cost was calculated based on the present value of the expected cash flows using a discount rate that reflects the risk-free rate and the Company specific credit spread.

The settlement of liabilities pursuant to the Termination Agreement and the initial measurement of the remaining acquisition liabilities under the terms of the Termination Agreement resulted in a gain on extinguishment of the pre-existing acquisition liabilities under the Second Amended Agreement of \$6,360,508.

On February 7, 2025, the Company and Splitter agreed to settle the final amount owing under the Termination Agreement for \$143,000 (US\$100,000) satisfying all of the Company's obligations to Splitter for the acquisition of the Gabbs Project.

The movement in the acquisition liabilities associated with the Gabbs Project during the period/year comprised the following:

|  | For the six m | June 30,<br>2025 | For the year ended<br>December 31,<br>2024 |
|--|---------------|------------------|--|
| Opening balance  | \$            | 333,083          | \$<br>8,637,975                            |
| Accretion of acquisition liabilities - Gabbs Project           |               | 2,377            | 235,119                                    |
| Payment for settlement/termination of acquisition liabilities  |               | (322,925)        | (1,357,200)                                |
| Shares issued for termination of acquisition liabilities       |               | -                | (340,071)                                  |
| Gain on financial instruments at fair value                    |               | -                | (700,735)                                  |

| Gain on extinguishment of acquisition liabilities              |               | (11,706)         | (6,360,508)                                |
| Ending balance   | \$            | -                | \$<br>333,083                              |
| Current portion of acquisition liabilities - Gabbs Project     |               | -                | (179,863)                                  |
| Non-current portion of acquisition liabilities - Gabbs Project | \$            | -                | \$<br>153,220                              |

# 9. CONVERTIBLE DEBENTURES

On March 4, 2024, and March 14, 2024, the Company issued 1,665 convertible debenture units for gross proceeds of \$1,665,000. Each unit consisted of one convertible debenture with a principal amount of \$1,000 and 12,500 share purchase warrants.

The convertible debentures bear interest at a rate of 7.5%, payable semi-annually on the last day of June and December of each year, commencing on June 30, 2024. Interest will be paid in shares based on the greater of the market price and 15-day volume weighted average price ("VWAP") of the shares on the Exchange, or cash, at the Company's election. For the six months ended June 30, 2025, \$45,260 (2024 – \$39,748) of interest expense on convertible debentures was recorded in the statement of earnings (loss).

On January 17, 2025, the Company issued 822,467 common shares to settle interest owing to the convertible debenture holders in the amount of \$51,967 (refer to note 12).

For the six months ended June 30, 2025, the Company paid \$1,020 (2024 – nil) of interest expense on convertible debentures which were converted to common shares by the holders.

The convertible debentures have approximately a two-year term, with the principal amount being due to be repaid in full by the Company on January 31, 2026. At any time during the term, the Company will have the option to extend the term by up to one additional year on payment of an extension fee to the holders of the convertible debentures in the amount of six month's interest payable in shares based on the greater of the market price and the 15-day VWAP or cash, at the Company's election. The convertible debentures are unsecured.

Under the terms of the offering, at any time during the term, a holder of the convertible debentures may elect to convert the outstanding net principal amount, or any portion thereof, into common shares in the capital of the Company at a conversion price of \$0.07 per share up to January 31, 2025 and \$0.10 per share from February 1, 2025 to January 31, 2026. In the event the Company announces a business combination and the 15-day VWAP of the shares on the Exchange is greater than \$0.07, the Company will have the right to require the holders to convert the outstanding net principal amount into common shares at the conversion price.

For the six months ended June 30, 2025, 2,642,854 common shares were issued for the conversion of convertible debentures in the amount of \$185,000 (refer to note 12).

Each warrant entitles the holder to purchase one additional common share of the Company at an exercise price of \$0.15 per common share for a period of two years from the date of issue. If after four months from the date of issue, the closing price of the common shares of the Company on the Exchange is equal to or greater than \$0.30 for a period of 10 consecutive trading days at any time prior to the expiry date, the Company will have the right to accelerate the expiry date of the warrants.

The fair values of the convertible debentures were estimated using the partial differential equation valuation method with key inputs used including share prices, risk-free interest rates, credit spreads, historical volatilities and dividend yields. At initial recognition, the fair value of the convertible debenture units was \$2,834,200, of which \$479,111 was allocated to the share purchase warrants. The excess of the initial fair value of the convertible debentures over the proceeds received was recorded in the statement of earnings (loss) and comprehensive earnings (loss).

# P2 GOLD INC. NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS For the three and six months ended June 30, 2025 and 2024 Unaudited – Expressed in Canadian dollars, except for share data

# CONVERTIBLE DEBENTURES (Continued)

For the six months ended June 30, 2025, the change in fair value of the convertible debentures was a loss on financial instruments at fair value of nil (2024 - \$502,721). Of the change in fair value, a fair value loss of nil (2024 - \$499,415) was recognized in the statement of earnings (loss) and a fair value loss due to the change in the Company's credit risk of nil (2024 - \$3,306) was recognized in other comprehensive earnings (loss).

The movement in the convertible debentures during the period/year comprised the following:

|  | For the si | x months ended<br>June 30, | For the year ended December 31, |
|--|------------|----------------------------|---------------------------------|
|  |            | 2025                       | 2024                            |
| Opening balance  | \$         | 1,448,688                  | \$ -                            |
| Proceeds from convertible debentures                         |            | -                          | 1,665,000                       |
| Fair value adjustment to convertible debentures at inception |            | -                          | 1,169,200                       |
| Fair value allocated to warrants issued -                    |            |                            |                                 |

|                      | \$<br>129,074 \$ | 132,599 \$   | 181,662 \$    | 243,986      |

# 10. E&E EXPENDITURES (Continued)

# (a) Sale of Ball Creek Claims

On December 4, 2024, the Company entered into a definitive agreement to sell the Ball Creek Claims to Kingfisher, an arm's length party, on (a) payment of \$1,000,000, with a non-refundable \$50,000 deposit due on signing of the agreement (received on December 9, 2024) and \$950,000 due on closing of the transaction; and (b) issuance of shares of Kingfisher having a value of \$250,000, with the shares priced at the closing price of the shares on the Exchange immediately prior to the announcement of the agreement. On January 29, 2025, the transaction closed with the Company receiving \$950,000 in cash and 1,151,151 common shares of Kingfisher.

The proceeds received from the sale of the Ball Creek claims were recognized as other income – sale of mineral claims in the statement of earnings (loss).

# (b) E&E expenditures - Nature of expense

The E&E expenditures of the Company, by nature of expense, for the three and six months ended June 30, 2025 and 2024 were as follows:

|                                  | For the three n  | nonths ended | For the six m | nonths ended |

#### 12. SHARE CAPITAL AND OTHER RESERVES

# (a) Share capital

At June 30, 2025, the authorized share capital of the Company consisted of an unlimited number of common shares without par value.

For the six months ended June 30, 2025, 2,642,854 common shares were issued for the conversion of convertible debentures in the amount of \$185,000 (refer to note 9).

On January 17, 2025, the Company issued 822,467 common shares to settle interest owing to the convertible debenture holders in the amount of \$51,967 (refer to note 9).

On February 28, 2024, the Company issued 5,231,869 common shares with a fair value of \$340,071 related to the Termination Agreement with Splitter associated with the Gabbs Project (refer to note 8).

On February 2, 2024, the Company completed a private placement of 6,250,000 units at a price of \$0.08 per unit for gross proceeds of \$500,000. Each unit consisted of one common share of the Company and one common share purchase warrant. Each warrant entitles the holder to purchase one additional common share of the Company at an exercise price of \$0.15 per common share for a period of two years from the date of issue. If after four months from the date of issue, the closing price of the common shares of the Company on the Exchange is equal to or greater than \$0.30 for a period of 10 consecutive trading days at any time prior to the expiry date, the Company will have the right to accelerate the expiry date of the warrants. Using the residual method, the warrants were valued at nil. Total share issue costs associated with the private placement were \$13,857 including finder's fees paid in cash of \$9,732.

# 12. SHARE CAPITAL AND OTHER RESERVES (Continued)

# (b) Other reserves

The Company's other reserves consisted of the following:

|                               | June 30,           | December 31, |
|-------------------------------|--------------------|--------------|
|                               | 2025               | 2024         |
| Other reserve - Share options | \$<br>3,606,328 \$ | 3,535,544    |
| Other reserve - Warrants      | 374,007            | 657,787      |
|                               | \$<br>3,980,335 \$ | 4,193,331    |

# (c) Share options

The following table summarizes the changes in share options for the six months ended June 30:

|                         | 2025          |                | 2024          |                |  |
|-------------------------|---------------|----------------|---------------|----------------|--|
|                         |               | Weighted       |               | Weighted       |  |
|                         | Number of     | average        | Number of     | average        |  |
|                         | share options | exercise price | share options | exercise price |  |
| Outstanding, January 1, | 6,983,333 \$  | 0.14           | 8,386,133 \$  | 0.37           |  |
| Granted                 | 1,625,000     | 0.11           | 1,400,000     | 0.08           |  |
| Expired                 | (2,233,333)   | 0.24           | (2,575,300)   | 0.61           |  |
| Outstanding, June 30,   | 6,375,000 \$  | 0.10           | 7,210,833 \$  | 0.23           |  |

The following table summarizes information about share options outstanding and exercisable at June 30, 2025:

|                 | Share op      | tions outstanding | Share options exercisable |                |  |  |
|-----------------|---------------|-------------------|---------------------------|----------------|--|--|
|                 | Number of     | Weighted          | Number of                 | Weighted       |  |  |
|                 | share options | average years     | share options             | average        |  |  |
| Exercise prices | outstanding   | to expiry         | exercisable               | exercise price |  |  |
| \$0.01 - \$0.12 | 5,050,000     | 1.33              | 3,309,250 \$              | 0.09           |  |  |
| \$0.13 - \$0.25 | 1,325,000     | 0.41              | 1,325,000                 | 0.14           |  |  |
|                 | 6,375,000     | 1.14              | 4,634,250 \$              | 0.10           |  |  |

The total share-based compensation expense for the six months ended June 30, 2025 was \$70,784 (2024 – \$110,093) which was expensed in the statement of earnings (loss).

# 12. SHARE CAPITAL AND OTHER RESERVES (Continued)

The following are the weighted average assumptions used to estimate the fair value of share options granted for the six months ended June 30, 2025 and 2024 using the Black-Scholes pricing model:

|                         | For the six | For the six months ended |  |  |
|-------------------------|-------------|--------------------------|--|--|
|                         | June 30,    | June 30,                 |  |  |
|                         | 2025        | 2024                     |  |  |
| Expected life           | 2 years     | 2 years                  |  |  |
| Expected volatility     | 121.75%     | 106.21%                  |  |  |
| Risk-free interest rate | 2.64%       | 4.30%                    |  |  |
| Expected dividend yield | Nil         | Nil                      |  |  |
| Forfeiture rate         | Nil         | Nil                      |  |  |

The Black Scholes option pricing model requires the input of subjective assumptions including the expected price volatility and expected share option life. Changes in these assumptions would have a significant impact on the fair value.

# (d) Warrants

The following table summarizes the changes in warrants for the six months ended June 30:

|                                 | 2025          |           | 2024          |           |
|---------------------------------|---------------|-----------|---------------|-----------|
|                                 | Number of     | Warrant   | Number of     | Warrant   |
|                                 | warrants      | reserve   | warrants      | reserve   |
| Outstanding, January 1,         | 58,307,059 \$ | 657,787   | 27,312,897 \$ | 1,029,969 |
| Transactions during the period: |               |           |               |           |
| Warrants issued -               |               |           |               |           |
| private placements              | -             | -         | 6,250,000     | -         |
| Warrants issued -               |               |           |               |           |
| convertible debentures, net of  |               |           |               |           |
| debt issuance costs             | -             | -         | 20,812,500    | 457,441   |
| Broker's warrants issued -      |               |           |               |           |
| convertible debentures          | -             | -         | 916,875       | 45,926    |
| Warrants expired                | (10,327,684)  | (283,780) | (8,411,597)   | (503,498) |
| Outstanding, June 30,           | 47,979,375 \$ | 374,007   | 46,880,675 \$ | 1,029,838 |

At June 30, 2025, the weighted average exercise price for the outstanding warrants is \$0.13 (2024 – \$0.25).

Brokers warrants issued in connection with the equity related offerings were valued at nil (2024 – \$45,926) using the Black Scholes option pricing model. The following are the weighted average assumptions used to estimate the fair value of brokers warrants issued for the six months ended June 30, 2025 and 2024 using the Black-Scholes option pricing model:

| Risk-free interest rate | N/A                      | 4.15%    |  |
| Expected dividend yield | N/A                      | Nil      |  |
| Forfeiture rate         | N/A                      | Nil      |  |

For brokers warrants, the Black Scholes option pricing model requires the input of subjective assumptions including the expected price volatility. Changes in these assumptions would have a significant impact on the fair value.

# (e) Earnings (loss) per share

The calculation of diluted earnings (loss) per share was based on earnings (loss) attributable to ordinary shareholders and the weighted-average number of shares outstanding after adjustments for the effect of potential dilutive shares. For the three and six months ended June 30, 2025 and 2024, potential share issuances arising from the exercise of share options and warrants and settlement of convertible debentures in common shares were included in the calculation of diluted weighted average shares outstanding as well as their impact on earnings (loss) attributable to shareholders of the Company. Potentially dilutive shares associated with share options and warrants (out of the money) were not included in the diluted earnings (loss) per share calculation as their effect was antidilutive.

The following table summarizes the calculation of basic and diluted earnings (loss) per share:

|                                    | For the three      | months ended | For the s   | ix months ended |
|------------------------------------|--------------------|--------------|-------------|-----------------|
|                                    | June 30,           | June 30,     | June 30,    | June 30,        |
|                                    | 2025               | 2024         | 2025        | 2024            |
| Net earnings (loss) for the period | \$<br>(433,815) \$ | (592,977) \$ | 629,576 \$  | 3,826,684       |
| Basic weighted average number      |                    |              |             |                 |

As at June 30, 2025, accounts payable and accrued liabilities include \$25,072 (December 31, 2024 – \$17,981) owed to three officers (December 31, 2024 – three officers) of the Company for salaries and benefits and reimbursement of transactions incurred in the normal course of business.

For the six months ended June 30, 2025, the Company charged \$93,116 (2024 – \$91,997) to Austin Gold Corp. ("Austin") and Innovation Mining Inc. ("Innovation") under financial services agreements. As at June 30, 2025, under the financial services agreements, \$15,519 (December 31, 2024 – \$15,333) is owed to the Company and included in receivables and other.

On May 12, 2025, the CEO, CExO and EVP were appointed to senior management positions at Tudor Gold Corp. ("Tudor"). The Company and Tudor share an office space in which, for the six months ended June 30, 2025, the Company incurred \$20,071 (2024 – \$19,620) of rent expense that was included in general and administrative expenses. For the six months ended June 30, 2025, the Company charged \$17,143 (2024 – nil) to Tudor under a consulting shared services agreement. As at June 30, 2025, under the consulting shared services agreement, \$17,143 (December 31, 2024 – nil) is owed to the Company and included in receivables and other. Subsequent to June 30, 2025, on July 1, 2025, the CFO of the Company was appointed CFO of Tudor under a financial services agreement, similar to those signed with Austin and Innovation.

On March 14, 2024, the Company issued 85 convertible debenture units for gross proceeds of \$85,000 to an officer of the Company (refer to note 9). On January 24, 2025, the Company issued 1,214,285 common shares to the officer of the Company for the conversion of the convertible debentures in the amount of \$85,000 (refer to note 9 and 12).

# (a) Related party loans

As at June 30, 2025, related party loans total \$1,048,358 (December 31, 2024 – \$915,500) owed to three officers (December 31, 2024 – three officers) of the Company.

Non-interest bearing related party loans

As at June 30, 2025, related party loans include \$498,358 (December 31, 2024 – \$365,500) of non-interest bearing, due on demand, loans owed to three officers (December 31, 2024 – three officers) of the Company.

# 13. RELATED PARTIES (Continued)

# Interest bearing related party loans

On March 1, 2024, the Company executed a related party loan with the Company's CExO in the amount of \$350,000. The principal amount borrowed and outstanding bears interest at a rate per annum equal to the financial institution prime rate plus 0.5%. Interest will be calculated monthly in arrears and is payable on a monthly basis within 10 business days after month-end. The promissory note is due on demand and the Company has the option to prepay the entire principal amount and accrued interest at any time.

On July 9, 2024, the Company received additional proceeds of \$200,000 from the Company's CExO borrowed under the same terms as the interest-bearing related party loan entered into on March 1, 2024 (see above).

For the six months ended June 30, 2025, \$15,241 (2024 - \$8,948) of interest expense was expensed in the statement of earnings (loss). As at June 30, 2025, accounts payable and accrued liabilities include \$2,463 (December 31, 2024 - \$2,862) of interest expense on related party loans owed to the Company's CExO.

#### 14. FINANCIAL RISK MANAGEMENT

The Company has exposure to a variety of financial risks: market risk (including currency risk and interest rate risk), credit risk and liquidity risk from its use of financial instruments.

The Company has exposure to a variety of financial risks: market risk (including currency risk and interest rate risk), credit risk and liquidity risk from its use of financial instruments.

# (a) Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates and interest rates will affect the Company's cash flows or value of its financial instruments.

# (i) Currency risk

The Company is subject to currency risk on financial instruments that are denominated in currencies that are not the same as the functional currency of the entity that holds them. Exchange gains and losses would impact the statement of earnings (loss).

The Company is exposed to currency risk through cash and cash equivalents and accounts payable and accrued liabilities held in the parent entity which are denominated in USD.

The following table shows the impact on pre-tax loss of a 10% change in the USD:CAD exchange rate on financial assets and liabilities denominated in USD, as of June 30, 2025, with all other variables held constant:

|  | Impact of currency rate change on pre-tax loss |          |         |  |  |
|--|--|----------|---------|--|--|
|  | 10% increase 10%                               |          |         |  |  |
| Cash and cash equivalents                | \$   | 4,766 \$ | (4,766) |  |  |
| Accounts payable and accrued liabilities |  | (6,684)  | 6,684   |  |  |

# 14. FINANCIAL RISK MANAGEMENT (Continued)

# (ii) Interest rate risk

The Company is subject to interest rate risk with respect to its investments in cash and cash equivalents. The Company's current policy is to invest cash at floating rates of interest with cash reserves to be maintained in cash and cash equivalents in order to maintain liquidity. Fluctuations in interest rates impact interest and finance income earned.

The impact on pre-tax loss of a 1% change in interest rates on financial assets as of June 30, 2025, with all other variables held constant, would be nominal.

The Company is subject to interest rate risk with respect to the variable financial institution prime rate associated with the interest bearing portion of the related party loan.

The Company is subject to interest rate risk with respect to the fair value of the convertible debentures, which is accounted for at FVTPL (refer to note 9).

# (b) Credit risk

Credit risk is the risk of potential loss to the Company if the counterparty to a financial instrument fails to meet its contractual obligations. The Company limits its exposure to credit risk on financial assets through investing its cash and cash equivalents with Canadian Tier 1 chartered financial institutions. Management believes there is a nominal expected credit loss associated with its financial assets.

## (c) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company manages liquidity risk by monitoring actual and projected cash flows and matching the maturity profile of financial assets and liabilities. Cash flow forecasting is performed regularly to ensure that there is sufficient liquidity in order to meet short-term business requirements.

Refer to note 1b for further discussion regarding the Company's ability to continue as a going concern.

The Company has issued surety bonds to support future decommissioning and restoration provisions.

The Company's financial obligations consist of accounts payable and accrued liabilities, lease obligations, convertible debentures and related party loans.

The maturity of financial liabilities as at June 30, 2025 is as follows:

|  | 1 year             | 2 -3 years | More than 3<br>years | Total     |
|--|--------------------|------------|----------------------|-----------|
| Convertible debentures                   | \$<br>1,189,500 \$ | - 5        | - \$                 | 1,189,500 |
| Accounts payable and accrued liabilities | 98,962             | -          | -                    | 98,962    |
| Interest on convertible debentures       | 97,363             | -          | -                    | 97,363    |
| Lease obligations                        | 2,136              | 1,246      | =                    | 3,382     |
|  | \$<br>1,387,961 \$ | 1,246      | - \$                 | 1,389,207 |

# 14. FINANCIAL RISK MANAGEMENT (Continued)

# (d) Fair value estimation

The Company's financial assets and liabilities are initially measured and recognized according to a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities and the lowest priority to unobservable inputs.

The three levels of fair value hierarchy are as follows:

Level 1: Quoted prices in active markets for identical assets or liabilities that the Company has the ability to access at the measurement date.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: Inputs for the asset or liability that are not based on observable market data.

The following tables present the Company's financial assets and liabilities by level within the fair value hierarchy. It does not include fair value information for financial assets and financial liabilities not measured at fair value if the carrying amount is a reasonable approximation of fair value.

| As at June 30, 2025                      |    | Carry     | ing | value      |         | Fair value |         |   |         |           |  |

| Convertible debentures                   |                | 1,448,688 |    | -         |        | -          |         | -       |         | 1,448,688 |  |
|  | \$             | 1,448,688 | \$ | 529,840   | \$     | -          | \$      | -       | \$      | 1,448,688 |  |

The carrying values of cash and cash equivalents, receivables and other and accounts payable and accrued liabilities approximate their fair values due to the short-term maturity of these financial instruments.

Marketable securities are fair valued at each reporting period using Kingfisher's share price on the TSX Venture Exchange.

# **15. COMMITMENTS**

The following table provides the Company's undiscounted contractual obligations as of June 30, 2025:

|                                    | 1) |           | 2 -3 years  | More than 3<br>years | Total           |  |
